ABOUT ME

I'm a passionate and self-driven web developer with hands-on experience in building scalable and secure applications using Django and Django REST Framework. I enjoy designing clean APIs, managing databases efficiently, and implementing robust backend logic. I also have working knowledge of React, which allows me to integrate intuitive and responsive frontends.

I continuously learn new technologies and best practices to improve my skills and deliver reliable, maintainable solutions. I'm currently seeking an opportunity to apply my technical knowledge, grow as a developer, and contribute to impactful projects in a professional environment.
